

Working Sessions

Intro Plenary

We gather together and start the Conference. What are the experiences of passing over the threshold between the Conference and the surrounding context?

Sociogram

Using a Gestalt method, we will work on the three themes of the Conference, to make roles and organization/s visible. Every sociogram is accompanied by interviews with each participant. Polarization and complementarity will be visualized and explored.

Transformation Analysis – TA

Work in smaller groups, where reflections can be made regarding learning, taken roles, organization and creativity. Here, participants can catch the opportunities to have insights and start the process of transformation.

Dreaming Matrix

A reflection working session where we use dream material to try to understand, on a deeper level, what the state of our organization is.

Macro

Here, we have the opportunities to explore what is happening in the “here-and-now” when all the participants are gathered together.

Micro

Here, we have the opportunities to explore what is happening in the “here-and-now” when the participants are gathered in smaller systems.

Life in the Institution – LIV

All participants and all staff are working together in smaller systems. The aim is to work creatively and actively so that the participants will take responsibility for the last working session in LIV, session 5.

Reflection

The whole Conference gathers and reflects.

Final Plenary

Here we have the possibility to share experiences, learnings, new insights and new working tools.

in cooperation with:

present a Working Conference:

Transformation: Organization, Leadership and Creativity

September 13-16, 2019
Nötesjö Hotell, Malmö

A Working Conference builds on the idea to learn through experience. This means that the learning opens up for creativity, individually and together.

How do we create an organization? How do we use our creativity when leading? In what ways can creativity lead to innovation and development in organizations? How do we build our workplace units, sections and divisions; our macro and micro organizations?

Leadership takes a role in that, for sure. What about the role of creativity?

Development means transformation – how can we make sure we have a continuous development in our leadership and our organizations?

These questions, and many others, can be explored in a Working Conference.

The Conference will give opportunities to explore and reflect on how each person take their role/s and how each person wants to transform and thereby develop their role/s.

This transformation process, we think, will lead to the transformation and development of the organization.

Because, it won't happen by itself.

So,

The Primary Task of the Conference is:

To give opportunities to explore and learn about how organization, leadership and creativity are linked together; to open up the possibilities of transformation and development.

For whom is this Conference?

Everybody who has a leadership and/or Managerial role in one or several organizations and is interested in learning in a creative way about development and transformation.

The Conference is seen as a temporary; learning institution.

No earlier Working Conference experience is needed.

Conference Director:

Louise Edberg

Pre- Conference Coordinator:

Wendy del Cid

The Conference staff will be recruited from the sponsoring organizations networks.
